

Tonight

Halifax

I stand defeated as the world turns faster
You're telling me, "it's worth the ride."
If you say so
How much do I have to take?
To forgive all of my mistakes?
Heart's racing
I'm shaking
Don't want to lose myself

Tonight
The wolves are at the front door
And they know that, I'm fading
But I'm not scared anymore
Cause inside
My heart's stronger than ever
No more waiting, cause this time
It's not gonna be like it was before

It's like you're only here to make me suffer
You swore to me you'd never lie
If you say so
I try to pass it off as fate
But death never comes too late
Heart's racing
I'm shaking
Don't want to lose myself

Tonight
The wolves are at the front door
And they know that, I'm fading
But I'm not scared anymore
Cause inside
My heart's stronger than ever
No more waiting, cause this time
It's not gonna be like it was before

So I've been told
Roads aren't paved in gold
I'm a sinner myself
But I've made it through hell
A jaded pair of eyes
Were my only disguise
But I woke up from that dream
To find the real me

Tonight
The wolves are at the front door
And they know that, I'm fading
But I'm not scared anymore
Cause inside
My heart's stronger than ever
No more waiting, cause this time
It's not gonna be like it was before

Tonight
My heart's stronger than ever
Cause inside

It's not gonna be like it was before
Tonight
My heart's stronger than ever
No more waiting, cause this time
It's not gonna be like it was before
It's not gonna be like it was before
It's not gonna be like it was before

It's not gonna be like it was before
It's not gonna be like it was before
