

The Scuttlebutt

Halle

Hey, wake up, wake up, wake up!

What?

Hey, have you not heard the scuttlebutt?

Your butt?

No, the gossip! The buzz!

The who-said-what-who-does-that, yeah, the Scuttlebutt!

Well, I was flying over land and sea

An ear to the ground

Then I came flying here for you to see

And hear what I found

Remember the swamp?

Remember my song in the swamp?

When I was like

"Womp, chicka womp-womp, chicka womp-woooooomp"

I remember

Well ever since!

The what's his name?

The guy with the hair and the shirt—

The Prince?

Yeah, the Prince! Has been droppin' hints

He wants to

You know when humans dress all nice like they're penguins?

Throw rice for the pigeons?

They're tryin' to blow up the pigeons

But those are just urban legends

I know a lot of really fat pigeons—

Scuttle, I—

Will. You. Just. Listen!

Sebastian, I got the scuttlebutt!

Hurry up!

You'll be like, "What?!"

When I drop the scuttlebutt!

Okay, now huddle up, buttercup

From the women who wash all the clothes

To the hunter who arrows the bows

The chatter all over the palace

Is that your Prince Eric is gonna propose

What?

To somebody nobody knows

They're saying he suddenly chose

Who?

Who? You sound like an owl
I'll bet it's the kid with the new set of toes

No!

Oh, yes! Anything goes, who'd ever guess
Our little Ariel's marriage material
Time for the rice and the dress
And the whaddayacall it
The thing with the lips when they press?
I don't have lips, I have a beak
So I guess I could give you a peck on the cheek?

I don't believe it

Say, you're awfully quiet
Oh, yeah
So what now?

Let's go, let's go, let's go!

Can you believe the scuttlebutt?

Get dressed child!

You're welcome for the scuttlebutt

We gotta lotta work to do before sundown

S-s-s-s-s-scuttlebutt, scuttlebutt, hey

Oh, please let this be the day

Let's go, let's go

Let's go!
We got it!
The gossip! The buzz!
The who-said-what-who-does-that-yeah-I-told-you-so
Let's go, let's go, let's go!

We gotta go before the sun go down

What?
Gotta get her ready for the big showdown

Right!

Go ahead and get her out of bed

And get her ready for the wedding
Sun is setting, so we can't slow down
The scuttlebutt!
