

## 7 Years

## Halloween

Downfall, spinning toward the ground  
It's only on the screen  
They say that's all  
No use hangin' round  
To live what used to be  
I won't Hide  
I won't run with the pack  
I stand alone, moving on  
I won't look back  
At seven years  
Uproar, we all want the fame  
Just 15 minutes more  
We're all sorry  
Too late to make a change  
And get up off the floor  
It's all what we long for  
We all want better days  
But there are no more  
I disagree  
I refuse to accept, defeat  
Til I die  
I will live out all my dreams  
Another seven years  
One million times  
Another seven years

It's only time gone by  
While bad luck holds you captive  
We al learn how to die  
We should learn how to live  
Downfall, crashing to the ground  
It is only make believe  
They say that's all  
Might as well not hang around  
It can't be like it used to be...  
I won't die  
I won't stand back and fail  
No broken mirrors  
No bad luck to avail  
Not anymore, no way  
I look foreward to....
