

Fighting Words

Halloween

I want, I take what I want
I hate, I kill what I hate
I need, so fuck you and your desire
I play with you in fire

I see, you are blind
When I hurt inside, you will feel my pain
I win, you lose
I rape, I use and abuse

Love and hate... are fighting words

I shoot, you die, I win the game
Total death!!! You disappear I kill again
Media overkill, makes me a superstar
But not you, you're where you are dead!!

Black and white are fighting words

Who cares anybody, anyone?
More lies, with all the power, we have won
Who lives, who dies, when war is done
Sympathy!? What is that? The feeling's gone

Give and take are fighting words

You want, you take what you want
You hate, you kill what you fucking hate
You greed, you ignore, my desire
And now you'll play, with me in fire

Me and you are fighting words!!!
