

Trick Or Treat

Halloween

Out on the streets at night, the wind is blowing cold
The reapers watching you, the warning has been told
Now you stand in front of me, ask me to spare your life
A wicked smile, I turn away, then cut you with my knife

Demon spirits, hiding from the light
Beggars and liars, roam the windy nights
Witches and warlocks, die in bloody fights
Trick or treat, it's Halloween tonite

If you kneel before me, I'll give you my advice
Run before I kill you, for human sacrifice
Stay away from here, full moon is in the sky
Killers on the loose tonight, trick or treat and die!

Demon spirits, hiding from the light
Beggars and liars, roam the windy nights
Witches and warlocks, die in bloody fights
Trick or treat, it's Halloween tonite

Out in the streets tonight in the cold October air
You can't see the light, blinded by despair
Nobody will find you dead, no trace of life at all
Don't be fooled by promises, no deal can stop the fall
Demon spirits die on darkened streets
Cold dead bodies, paying for their treat
Witches and warlocks, die in bloody fights
Trick or treat, it's Halloween tonight

Trick or treat, face defeat, give me something dead to eat
