

# Suicide

Hallows Eve

I took the pills that made me fast to speed my brain  
Future is past  
Rapid pulsations upon my heart  
Pulsing my blood from part to part

Suicide  
I'm still living  
Suicide  
I'm still giving

To suicide I bring the gas  
To suicide I give my ass  
Open the can I huff the fume  
Ah, to me it is perfume

Suicide  
I'm still living  
Suicide  
I'm still giving

To suicide I swear an oath  
The human race I do loathe  
Now I drive reckless speed  
With suicide I take the lead

Suicide  
I'm still living  
Suicide  
I'm still giving

I wish I had never been born  
My own past hear me mourn  
Arm in arm I walk with death  
Crazed words on my last breath

Suicide  
I'm still living  
Suicide  
I'm still giving
