Fool for the Blues

Johnny Hallyday

Don't say you love me babe,
I know you'd be lying
I can see it in your smile
It's like a drug now
You're addicted to them blues
Always getting high
Oh! But the rain it falls
From the way I feel, the way I feel

Empty souls and empty hearts
We don't choose, I'm still a
Fool the blues

Oh those bitter words
How they hurt me baby
Do someone hurt you bad?
All this pain
We have inside all of us
From the love we never had
Oh! And the rain still falls
But I know baby through it all
Oh! They say time will heal
But I know from the way I feel, the way I feel

Empty souls and empty hearts we don't choose
I'm still a fool the blues
Empty souls and empty hearts we don't choose
I'm still a fool the blues
