

It's a Long Way Home

Johnny Hallyday

The night is closing down
On every street in town
And I look for your face
As I leave every place
Wish you were still around

I sing them one last song
Somehow it sounds all wrong
'Cause you're not there with me
In the harmony
Where you used to be

Oh, it's a long way home
It's a long way home
In the night alone
When your songs are all gone
And your life runs no
It's a long way home
It's a long way home

I'll ask you how you've been
When we meet again
And all the wilderness
Between that time and this
Will vanish as we kiss

Oh, it's a long way home
It's a long way home
In the night alone
When your songs are all gone
And your life runs no
It's a long way home
It's a long way home

You are the only one
Who can feel all the miles
I've gone on my way back home

Oh, it's a long way home
It's a long way home
In the night alone
When your songs are all gone
And your life runs no
It's a long way home
