

# Behind The Mask

Hämatom

There's a demon inside my veins  
And it's about to attack  
Right from the depths of my darker soul  
And now the world turns black

And if I want to stop it  
I got no choice  
I know you wanna see it, right?  
We turn this place into a freak show  
Let me know if you are with me  
Let's go  
Lock up your daughters, we start to mutate

This is our life behind the curtain  
Life behind the mask  
If you wanna freak out, take my hand  
We are the hottest motherfuckers in town

This is our life behind the curtain  
Life behind the mask  
If you wanna freak out, come follow me  
Live with us  
Behind the mask  
Behind the mask

Now you can see what I've become  
You took a glimpse into hell  
A dark place full of hate and flames  
That's where I left my shell

We are the same, we are freaks, out of control  
And we are fucking insane  
So let us take this place apart now  
And the world is gonna burn like hell  
(It's getting hot in here)  
Lock up your daughters, we start to mutate

This is our life behind the curtain  
Life behind the mask  
If you wanna freak out, take my hand  
We are the hottest motherfuckers in town

This is our life behind the curtain  
Life behind the mask  
If you wanna freak out, come follow me  
Live with us  
Behind the mask

(We are the hottest motherfuckers in town  
We are the hottest motherfuckers in town)

This is our life behind the curtain  
Life behind the mask  
If you wanna freak out, take my hand  
We are the hottest motherfuckers in town

This is our life behind the curtain

Life behind the mask  
If you wanna freak out, come follow me  
Live with us  
Behind the mask

Let's go  
(We are the hottest motherfuckers in town)  
Behind the mask  
Behind the mask  
Live with us  
(Behind the mask)
