

# Pin Me Down

Hämatom

My dark little mistress  
You take the light away from me  
You turn my world into a living hell  
But that's exactly how I want it to be

My dark little mistress  
You break my heart, you take my pride  
Even if you cause the deepest pain  
It makes me feel alright

Pin me down, down  
Pin me down, down  
Pin me down  
That's what I call love  
Drag me down, down  
Drag me down, down  
Drag me down  
Yes, I like it rough  
We don't need a safe word, my life is in your hands  
Please push me down, down  
Push me down, down  
Push me down  
No I can't get enough

My dark little mistress  
Your eyes are darker than the night  
Even with your noose around my neck  
You fill the emptiness inside

My dark little mistress  
You're a savage born in hell  
Even if I have to kiss your boots  
It makes me feel so well

Pin me down, down  
Pin me down, down  
Pin me down  
That's what I call love  
Drag me down, down  
Drag me down, down  
Drag me down  
Yes I like it rough  
We don't need a safe word, my life is in your hands  
Please push me down, down  
Push me down, down  
Push me down  
No I can't get enough

Hit me, hit me, I'm begging you to kick me  
I like the way you make me bleed  
Choke me, whip me, come and dominate me  
It feels so good

Pin me down, down  
Pin me down, down  
Pin me down  
That's what I call love

Drag me down, down  
Drag me down, down  
Drag me down  
Yes, I like it rough  
We don't need a safe word, my life is in your hands  
Please push me down, down  
Push me down, down  
Push me down  
No I can't get enough

I can't get enough  
You know

We don't need a safe word, my life is in your hands  
Please push me down, down  
Push me down, down  
Push me down  
No I can't get enough
