

# Undead Forever

Hämatom

I'm not the guy who likes champagne  
Your cheese and wine, way too lame  
In blood and bones, I do believe  
But not in pork and lamb and beef

Cause I have a special kind of taste  
Wanna look my lunch right in the face  
I like it raw and still alive  
I got my teeth, don't need a knife

I like people  
Cause people taste so good

Join my world tonight  
Undead forever  
All we need's one bite  
Undead forever  
And now it's time to praise the end of the entire human race  
We walk side by side  
Undead forever

On bloody organs, I will feast  
On the menu: Human meat  
From Prague to Tokyo to Cape Town  
Yes, I am back to hunt you down

Cause nothing can stop me, truth be told  
Not even bullets right to the dome  
I'm gonna find you, but you won't die  
You're way too tasty, my sugar pie

I like people  
Cause people taste so good

Join my world tonight  
Undead forever  
All we need's one bite  
Undead forever  
And now it's time to praise the end of the entire human race  
We walk side by side  
Undead forever

Undead forever  
Undead forever

I like people  
Cause people taste so good  
I like people  
Cause people taste so good

Join my world tonight  
Undead forever  
All we need's one bite  
Undead forever  
And now it's time to praise the end of the entire human race  
We walk side by side  
Undead forever

I like people  
Cause people taste so good  
I like people

Undead forever  
And now it's time to praise the end of the entire human race  
We walk side by side  
Undead forever
