

In Our Time (I'll Always Love You)

Hamilton Leithauser

Happy Bobby Rose
Is drinking off for yesterday
Are tomorrow's hours
On its way?

I'll always love you
I'll always love you
I'll always love you

It's getting hard to be realistic
With memories so sharp and nostalgic

I'll always love you
While I can
I'll always love you
In our time
I'll always love you
Oh-ho
I'll always love you

Today is a day that we're starting again
If I don't look the same
Well, it's gotta be a good thing
I try to be good
Oh, whatever that may be
It's always the same

In our time
I'll always love you
While I can
I'll always love you
Oh-whoa
I'll always love you
I'll always love you
