

# Avenge The Fallen

HammerFall

Avenge, avenge, avenge the fallen  
Avenge, avenge, vengeance is mine

What is the worst, be the one who died  
Or be the one who survived  
Better be saved or forever young  
Be forgotten, erased by the tide

Nobody wins in this endless war  
No one is keeping the score  
Everyone knows how the story goes  
Once erased it can not be restored  
'Cause this is the mission I must carry on and through

Avenge, avenge, avenge the fallen  
Avenge, avenge, vengeance is mine

Whatever it takes, I'll see it through  
Avenge, avenge, avenge  
Whatever I do, I do for you  
Avenge, avenge, avenge

Eye for an eye for the fallen ones  
Renegade souls on the run  
A tooth for a tooth for tranquility  
In this total eclipse of the sun  
I'm the last of my legion, my kind won't go down without a fight

Avenge, avenge, avenge the fallen  
Avenge, avenge, vengeance is mine

Avenge, avenge, avenge  
Avenge, avenge  
Vengeance is mine
