

# Hope Springs Eternal

HammerFall

"Hope springs eternal in the human breast"  
A waking dream, a fire inside your chest  
Shreds of hope bring silence to a weary mind  
Oh, I wish to find the reason or the rhyme  
Here today, gone by morning my friend  
Live your life like there's no end

Learn from yesterday  
Hope for tomorrow  
Let your spirit fly free with no sorrow

Am I immortal or a simple man  
Born and raised to be the best I can  
Who sets the limits, makes you hold your breath  
Oh, I wish to live before and beyond my death  
What is hope, but being able to see  
That there's light inside the dark

Learn from yesterday - Living for today  
Hope for tomorrow - Slay another day  
Let your spirit fly free with no sorrow

No, I'm not immortal, I am just a man  
Raised to live and do the best I can  
Life to the limit, every day's a brand-new start  
When "Hope Springs Eternal" rule my heart  
Without dreams, you will cease to exist  
Life's the ride that can't be missed

Learn from yesterday  
Hope for tomorrow  
Let your spirit fly free with no sorrow

Learn from yesterday - Living for today  
Hope for tomorrow - Slay another day  
Let your spirit fly free with no sorrow

Learn from yesterday - Living for today  
Hope for tomorrow - Slay another day  
Let your spirit fly free with no sorrow
