

Black Metallic

Hammock

I've never seen you when you're smiling It really gets under my skin
You say it's easy when it's faster I still can't guess what you're after

It's the colour of your skin Your skin is black metallic It's the colour of your skin
Your skin is black metallic Your skin is black metallic Your skin is black metallic

I think of you when you're sleeping Of all the secrets that you're keeping
You can't stay all day under the covers 'Cause under there you'll discover

It's the colour of your skin Your skin is black metallic It's the colour of your skin
Your skin is black metallic Your skin is black metallic You're turning black metallic...

It's the colour of your skin It's the colour of your skin...

Your skin is black metallic Your skin is black metallic Your skin is black metallic
You're turning black metallic

It's the colour of your skin Your skin is black metallic Your skin is black metallic
Your skin is black metallic Your skin is black metallic Your skin is black metallic
Your skin is black metallic
