

Static

Hand Of Mercy

Blurred lines between what to believe
And the fucking snake oil that you've been sold
A fabrication by the ones that have you searching
To find shelter in a "world so cold"

No real answers
Just words to fill a void
No real answers
Just words to fill a void

Beware the messengers, false prophets
Try to infiltrate your thoughts
Make free thinking common practice
Keep your mouth full of salt

No real answers
Just words to fill a void
No real answers
Just words to fill a void

Beware the messengers, false prophets
Try to infiltrate your thoughts
Make free thinking common practice
Keep your mouth full of salt

Free thinking over following
Like sheep to tow the line
Free thinking over following
Uncage and free your mind

Uncaged
Free thinking

Disengage from the charmers
Filter through the noise
Keep that mouth full of salt
Make your own fucking choice

Disengage
Filter through the noise

Disen-fucking-gage
Filter through the noise
Make your own fucking choice

Disengage from the charmers
Make your own fucking choice

Free thinking over following
Like sheep to tow the line
Free thinking over following
Uncage and free your mind
