

Love Always Wins

Hande Yener

Everytime I try to reach you
You build a wall between us
I guess you don't believe in love or you don't believe in us
I don't know
Well, you say I'm a dreamer, chasing empty lies
Spinning like a fly, caught up by the light
One more round to fight, there's no place to hide
You better realize, cause always in the end

Love always wins
Love always wins
Love always wins
Love always wins

Everytime I try to reach you
You build a wall between us
I guess you don't believe in love or you don't believe in us
I don't know
Well, you say I'm a dreamer, chasing empty lies
Spinning like a fly, caught up by the light
One more round to fight, there's no place to hide
You better realize, cause always in the end

Love always wins
Love always wins
Love always wins
Love always wins

You say I'm a dreamer, chasing empty lies
Spinning like a fly, caught up by the light
One more round to fight, there's no place to hide
You better realize, cause always in the end

Love always wins
Love always wins
Love always wins
