

# Give and Take

## Handguns

Sometimes I wish that I was still that kid from just 10 years ago

But recently I've learned, for what it's worth,  
I'm better off letting go of the past  
So I can give myself some ample space to grow

Cause if you keep looking back, you'll never know,  
Never know just which way to go  
We give and we take  
It's a beautiful mess we make

We laugh and we cry  
It's the only way to make it through this life  
I know I've made mistakes more  
Than I can count on just my hands alone,  
And it shows that I learned to grow,  
I'll make it known, I'll be fine on my own

We give and we take  
It's a beautiful mess we make  
We laugh and we cry  
It's the only way to make it through  
The only way to make it through this life

And I've spent too many nights questioning the meaning of my life  
Making sense of all the little things that open up your eyes

We give and we take  
It's a beautiful mess we make  
We laugh and we cry  
It's the only way to make it through  
The only way to make it through this life
