

## Perspectives

### Hands Like Houses

Be honest with yourself  
Do you see in your reflection someone else  
You're fucking up the glass, and looking for direction  
So close you cant see past

I'll make amends, I'll make believe  
I'll make my mind , I'll make you see  
I'll take a chance, I'll take a moment  
All for nothing.....

All my life  
I tried letting you inside to  
See the world through my eyes  
and all I see (is time I've wasted)

All my life you thought that  
I've lost my mind  
If I could just get it right  
Then You might see  
You just don't get it  
(You just don't get it)

the lights left on all night  
The locks have all been changed  
while I'm inside

And I'm beating down the door  
Knuckles bloody broken raw  
Tried to take these walls and turn them inside out  
It's all for nothing.....

All my life  
I tried letting you inside to  
See the world through my eyes  
and all I see (is time I've wasted)

I'll make amends, I'll make believe  
I'll make my mind , i'll make you see  
I'll take a chance, I'll take a moment  
Let it out and let go.....

It's all for nothing!!!  
(It's all for nothing)

All my life  
I tried letting you inside

All my life  
I tried letting you inside to  
See the world through my eyes  
and all I see (is time I've wasted)

You just don't get it (You just don't get it)  
It's all for nothing

(You just don't get it)
