

# The Hours

## Handsome Boy Modeling School

(chino moreno)  
Why don't you come out  
Just wasting hours to call  
And say...  
No we're not gonna die!  
Thoughts evolve  
Shall we kill  
A lot say  
Tell them lies it's hard play  
And see my chest grow

For hours and hours and hours and safe for hours  
The hours and hours and hours and hours...

(chino moreno)  
Go tell  
Wasting hours to talk  
And say  
No we're not gonna stop!  
Thoughts evolve  
Shall we kill  
A lot say  
Tell them lies it's hard play  
And see my chest grow

For hours and hours and hours and safe for hours  
The hours and hours and hours and hours...

(el-p & cage)  
Don't let them take you alive,  
The city knows my name, number and address,  
There's no where to hide.  
You must all hear the merciful leader of big guns,  
Watching gotti and television talk to your son.  
At least this plane isn't corporated,  
To a sickness that will not be infiltrated.  
When you slip this, then you'll see it's automated  
Weather the ? Will be inaugurated  
And when tapped in the vein  
Clapped back automatic a vein snap  
But i just wanna boogie with a same plaque  
Weather men will bring the beast out of a cheeky creek,  
Some of these soldiers scream at the look of me (while  
i swing with an axe!),  
Meditated, my medicated state of my rate,  
I cant wait to shoot frank and loot the bank.  
And uh, it's automated gang otta take out the gator  
Pulling pranching on em' things and we breezing out of  
your brains some.

For hours and hours and hours and safe for hours  
The hours and hours and hours and hours...
