Bring It On

Handsome Devil

Hey hey, hey hey, hey hey
You've got a problem, you've got a problem with me
I don't want to hear about you slagging me
After all I gave you everything
Everything ain't good enough
Try as you might
You can run, but you can't hide
So you want a piece of me – bring it on
Time is money, talk is cheap – bring it on
So if you're saying what you mean – bring it on
Bring it on, bring it on, bring it on, bring it on (bring it)
Hey hey, hey hey, hey hey
Stay out of my way, stay out of my life
Because you ain't no stand up guy
I know what you need – a dose of reality
Yeah that sounds good to me right
Try as you might
You can run, but you can't hide
So you want a piece of me – bring it on
Time is money, talk is cheap – bring it on
So if you're saying what you mean – bring it on
Bring it on, bring it on, bring it on, bring it on (bring it)
