

What About Us?

Handsome Furs

Well, they're an army of thieves, they've got everything they need

But what about us? What about us?

There's lies and deceit, so hard to believe

But what about us? What about, what about us?

What about us? What about us?

What about us? What about us?

Because it's time after time we've stuck behind the line

What about us? What about us?

And they won't admit defeat when it pours into the street

So what about us? What about, what about us?

What about us? What about us?

What about us? What about us?

Oh go on, go on, go on

Go on and break my heart

Oh go on, go on, go on

Go on and break my heart

When it's under control from forces impossibly remote

What about us? What about us?

And you're lying in your bed and just couldn't get ahead

What about us? What about, what about us?

What about us? What about us?

What about us? What about us?

Break my heart

Break my heart

Break my heart

[Refrain] (x3)

I've been living life so long

I know there's nothing wrong with this

Come on and break my heart

Break my heart

[Outro] (x2)

Well let's stay in this evil little world

Break my heart, break my heart
