

Believers

Handsome Ghost

You wanna swim with the sharks
And if they tear you apart
Then it is what it is
Said you don't wanna live, soft

You light a smoke in the bar
Like they know who you are
It was pressed in your mouth
They were throwing us out, hard

I don't wanna be left
If it's crumbling
If you wanna connect
I am listening
Will you meet me there?
We've been deep underneath
Don't you done with this scene?
Don't you want to believe?
We could be more than believers

You, you can follow me home
If you sleep in your clothes
And you wake to alarms
Shake the cold from your arms held

I don't wanna be left
If it's crumbling
If you wanna connect
I am listening
Will you meet me there?
We've been deep underneath
Don't you done with this scene?
Don't you want to believe?
We could be more than believers
We could be more
We could be more

Settled in sleep, but we're waking
Packing our things in the dark
You carry your clothes and you're changing
The running is hard

I don't wanna be left
If it's crumbling
If you wanna connect
I am listening
Will you meet me there?
We've been deep underneath
Don't you done with this scene?
Don't you want to believe?
We could be more than believers

If you wanna escape, quit your covering
If it's all gone to waste if you're settled in
If you're staying here let it go and I'll learn

When it's gone, you'll know, get it happening slowly

We could be more than believers
We could be more
