

Boy

Handsome Ghost

Boy do as you please
But live life right or fall down to your knees
Boy do what you feel
But take good care beware of sinners and thieves

Well what do you know
What do you know

Boy marry your love
Or someday soon you'll curse the things you love
Boy don't you live wild
Tame your heart there's safety in the mild

Well what do you know
What do you know

Boy grow old and weak
Look at your life and live through the stories you speak
Boy die like a man
Do what you will but know that you're part of a plan

But what do you know
What do you know

While my heart is beating
Body breathing now
While my legs are moving
Never losing ground
No one's running me down
No one's running me down

While my heart is beating
Body breathing now
While my legs are moving
Never losing ground
No one's running me down
No one's running me down
