

Christmas In Jersey

Handsome Ghost

Are you gonna stay with him for a while?
Singing songs about whiskey
Finished with the fall the winter arrives
You're spending Christmas in Jersey

You're telling all your friends it's gonna last
I thought about it, I want you back
I could build a kingdom in the cracks
I thought about it, I want you back

Are you gonna call me once in a while?
I saw your photos look lovely
You've been on the road for months at a time
In this wild, wild country

And maybe I'm a postcard from the past
I thought about it, I want you back
I could build a kingdom in the cracks
I thought about it, I want you back

And maybe I'm a postcard from the past
I thought about it, I want you back
I could build a kingdom in the cracks
I thought about it
