

Creatures

Handsome Ghost

Frozen scene, in a dull month
And we're pixelated, hands are shaking
Queue these dreams, end my bad luck
Cause we're celebrating, sun escaping

We're raising our drinks, in an ode to something
And you're pulling my coat, in the glow, the glow, the glow

Moonlight, let's go

Rental car, to escape routes
And we drove through country, black above me
Your parents' house, to an old roof
I was silent wondering, said "just say something"

I told you that now, was the best that I felt
Since forever ago, in the glow, the glow, the glow

Moonlight, let's go

Tell me your secrets
Cobwebs and creatures
Slow to show, to show, grow
Through cracked windows
We learned this language

Patterns and pavement In the glow, the glow, oh
Moonlight let's go
