

# Like You Lost Your Mind

Handsome Ghost

Come to me  
Come and tell me you're wondering again  
Deep deep breath no regrets but what comes next  
When we go underneath  
Is there some kind of party  
Surprise we drive up North  
Daylight burns and I'm not sure  
What's after

Sun goes down dark on the water  
Turn the song up loud dance if you wanna  
But slowly  
Like we know that it's only now  
Rain like tears hard on the gutter  
Been a long long year that doesn't matter  
Because you know me  
And you're gonna show me how

We're running out of time  
So love me like love me like you lost your mind

Suddenly  
Where's the sense in the suffering  
We make the best you wear that dress tonight  
Cause I wanna celebrate  
All the lines on my face all the scars  
I lived hard but here we are  
So I'll watch

Sun goes down dark on the water  
Turn the song up loud dance if you wanna  
But slowly  
Like we know that it's only now  
Rain like tears hard on the gutter  
Been a long long year that doesn't matter  
Because you know me  
And you're gonna show me how

We're running out of time  
So love me like love me like you lost your mind

Sun goes down dark on the water  
Turn the song up loud dance if you wanna  
But slowly  
Like we know that it's only now  
Rain like tears hard on the gutter  
Been a long long year that doesn't matter  
Because you know me  
And you're gonna show me how

We're running out of time  
So love me like love me like you lost your mind  
We're running out of time  
So love me like love me like you lost your mind  
We're running out of time  
So love me like love me like you lost your mind
