

## Low East

Handsome Ghost

Let me go, let me regret  
Reel me in, lead me out west  
This your place, these are your friends  
Get your way  
I'm fallin' again

Staircase, follow it to the top  
Look at how we're living, how could anyone ever stop?  
New York summer, it came so strong  
Subway to the center, pull me under, it won't take long

Let me go, let me regret  
Reel me in, lead me out west  
This your place, these are your friends  
Get your way  
I'm fallin' again

Low east, in and out of these bars  
Hidden in the corner, I should warn you it does get hard  
Drink up, let's celebrate playing house  
Sitting in the kitchen, I should listen, we'll figure it out

Let me go, let me regret  
Reel me in, lead me out west  
This your place, these are your friends  
Get your way  
I'm fallin' again

Wake up earlier than I thought  
Say you know the city, you were running the dirty blocks  
Three months, look at how much I've spent  
Waiting for the winter would have figured we'd make a dent

Let me go, let me regret  
Reel me in, lead me out west  
This your place, these are your friends  
Get your way  
I'm fallin' again

Find your keys, lead me upstairs  
Folded sheets, clothes everywhere  
This your place, this is your bed  
Get your way  
I'm back here again
