Tonight Comes Round Again

Handsome Ghost

Suddenly
Sidewalks are sinking and I'm coming down
Sirens are making their sounds

True to form
Everything I wanted couldn't matter now
Last night is lying around

You say we're on the right track, right track, right track
You would never buy that, buy that, buy that
Call me when tonight comes night, comes night, comes round agai
n
Tonight comes round again

Out again
Such a scary city but I'm fitting in
Midnight and time to pretend

I let you in
Things left on the table yeah you know the drill
Postcards and photograph stills

You say you're with the wrong man, wrong man, wrong man
Tell me on the one hand, one hand, one hand
Call me when tonight comes night, comes night, comes round agai
n
Tonight comes round again

So there you stand
No one ever promised that the world was fair
Everyday
Spent inside the spiral of these crooked stairs

You say you're with the wrong man
You tell me on the one hand
You way we're on the right track
But you would never buy that

So call me when tonight comes
Night, comes night, comes night, comes
Night, comes night, comes night, comes round again
Tonight comes round again
