

Weeds

Handsome Ghost

If you wake up, someday soon
In a great big house, in a new bedroom
If you get to thinking
Bout the passing of time

Circumstances, years are strange
The same old people, have new last names
And if for a moment
I am crossing your mind
I hope it lingers

Find me in the weeds, find me in the dark
Diving underneath, fighting off the sharks
Find me still loving you the best that I can
Find me in the wrong, find me in the right
Find me in the calm in the middle of the night
Find me still loving you the best that I can

Ooh...
Find me still loving you the best that I can

If some weekend evening, your kind new man
At a black tie party, he takes your hand
If you make your entrance, in that dress that I liked

If sometime later, you should meet
Some quiet stranger, who talks like me
And if for a moment, I am crossing your mind
I hope it lingers

Find me in the weeds, find me in the dark
Diving underneath, fighting off the sharks
Find me still loving you the best that I can
Find me in the wrong, find me in the right
Find me in the calm in the middle of the night
Find me still loving you the best that I can

Ooh...
Find me still loving you the best that I can

Find me in the weeds, find me in the dark
Diving underneath, fighting off the sharks
Find me still loving you the best that I can
Find me in the wrong, find me in the right
Find me in the calm in the middle of the night
Find me still loving you the best that I can

Ooh...
Find me still loving you the best that I can
Ooh...
Find me still loving you the best that I can
