

## Cut Up Kids

### Hangman's Chair

Chasing the answers all night long  
Until she forgets the questions  
Tripping in these lights like a fly  
The spider eats you alive

Insert the blade  
Inside  
Take me away  
Unveil the bride

Cut after cut, burns and wounds  
The scars will show you the worst  
Cursing herself day by day  
She can't stand her eyes in the mirror

Crows waiting  
Silently watching  
This hole in the ground  
Calls me so loud

She is the venom  
The plague to bring me down
