## **Crazy Little Train Of Love**

**Hank Snow** 

I never saw the world lookin' so bright Never saw the wheels turnin' so right And I'm glad to be ridin' This crazy little train of love

I'm just like a kid on a merry-go-round
I'm so high in the clouds, I hope I never come down
And I'm glad that I'm ridin'
This crazy little train of love

Our train don't carry the blues
No room for hurtin' or any bad news
Our train is just loaded with love
Just you and I, and that's enough

It just keeps a-chuggin' on down the track We're so in love, we don't want to look back Aren't you glad that we're ridin' This crazy little train of love

I see our destination just over the hill Cozy little place that they call Arborsville Aren't you glad to be ridin' This crazy little train of love

The wheels sing the song as they roll down the track They seem to say I love you with each clickety-clack Aren't you glad that we're ridin' This crazy little train of love

Our train don't carry the blues No room for hurtin' or any bad news Our train is just loaded with love Just you and I, and that's enough

It just keeps a-chuggin' on down the track We're so in love, we don't want to look back Aren't you glad that we're ridin' This crazy little train of love
