Livin hard wild free is the life for me and i'm always good fri end with bad company

i drink all dayjust to get to feeling right and i'm just trying to get ahead in this wreckless life

working hard and playing when i can raisin hell in the mud and livin off the land

i get tired when i have to walk a straight line, cause the devi ls pouring drinks and his daughter needs a ride

well it's hard to see that i love you so well it's plain to see that i let you go

living wild and free keeps me on the ground and i'm running lik e hell to keep from goin down

I been riding all day with me i'm wired? that's the life i chos e it keeps my soul on fire

gettin drunk and playing real loud it's what i do to make the c rowd get down

and it's hard to say i'm not much of a family man. cause i play all night and raise hell with my hellbilly band

and i know i was never quite good enough for you. so i'll sit r ight here and have another drink or two

Yeah it's hard to see that i loved you so. well it's a plain to see that i let you go

livin wild and free keeps me on the ground. and i'm running lik e hell to keep from goin down

and i'm running like hell to keep from goin down.
