Oh sweet baby, love you baby
Oh sweet baby, love l-baby
Oh sweet baby, oh sweet baby
Love you, baby, love l-baby
Oh sweet baby, love you baby
Oh sweet baby, love l-baby
Oh sweet baby, oh sweet baby
Love you, baby, oh sweet baby

I remember all the times that we would go to sleep
And you were next to me, and I would see you in my dreams
When you kissed me, and told me, that we would be
Together, together, forever
You would say how much you love me almost every day
In almost every way, and it would always feel the same
You kissed me, and told me that it would be okay
Together, forever, one day

Though I love you baby
It feels kinda crazy
Every time you see me
I'm on my own
Feeling better really
I can see you clearly
[Now I've saved you as a picture
On my phone
Though I love you baby
It feels kinda crazy
Every time you see me
I'm on my own
Feeling better really
I can see you clearly
Now I've saved you as a picture
On my phone

I believed you when you said all those nice things to me
I knew you were around, cause when you spoke I heard a sound
You kissed me, and told me, that we would be
Together, together, forever
Now I tell you that I love you almost every day
I hope it feels the same, but maybe things have got to change
You kissed me, and told me that it would be okay
Together, forever, one day

Though I love you baby
It feels kinda crazy
Every time you see me
I'm on my own
Feeling better really
I can see you clearly
Now I've saved you as a picture
On my phone
Though I love you baby
It feels kinda crazy
Every time you see me
I'm on my own
Feeling better really

I can see you clearly
Now I've saved you as a picture
On my phone

Oh sweet baby, love you baby
Oh sweet baby, love l-baby
Oh sweet baby, oh sweet baby
Love you, baby, love l-baby
Oh sweet baby, love you baby
Oh sweet baby, love l-baby
Oh sweet baby, oh sweet baby
Love you, baby, love l-baby
Oh sweet baby, love you baby
Oh sweet baby, love l-baby
Oh sweet baby, oh sweet baby
Love you, baby, love l-baby
Oh sweet baby, love you baby
Oh sweet baby, love l-baby
Oh sweet baby, oh sweet baby
Love you, baby, love l-baby

Though I love you baby
It feels kinda crazy
Every time you see me
I'm on my own
Feeling better really
I can see you clearly
Now I've saved you as a picture
On my phone
Though I love you baby
It feels kinda crazy
Every time you see me
I'm on my own
Feeling better really
I can see you clearly
Now I've saved you as a picture
On my phone
