

Home And A Hometown

Hannah Ellis

There ain't nothing like waking up too early at my mom's house
'Cause every wall's paper thin and my family talks too loud
But I do the same, it's just how we're raised
But I feel just as right across state lines in my downtown apartment
I can barely afford the concrete floors and the limited parking
But I can't see myself anywhere else

'Cause I got a highway and I got a back road
I got a fast paced life and a place I go to move slow
One I wanna make it, one I wanna make proud
No matter which one I'm leaving I still wanna turn around
'Cause I got a home and I got a hometown

There ain't nothing like 4th of July, parade full of tractors
The candy thrown, faces I know, head to the lake after
Same firework show that I've always known
Head back to Monday night, half price wine at Barcelona
Always meeting him and our best friends don't order 'cause they know us
200 miles apart don't feel that far

'Cause I got a highway and I got a back road
I got a fast paced life and a place I go to move slow
One I wanna make it, one I wanna make proud
No matter which one I'm leaving I still wanna turn around
'Cause I got a home and I got a hometown

200 miles apart don't feel that far

'Cause I got a highway and I got a back road
I got a fast paced life and a place I go to move slow
One I wanna make it, one I wanna make proud
No matter which one I'm leaving I still wanna turn around
'Cause I got a home and I got a hometown
Oh yeah, I got a home and I got a hometown
