

Karma On The Rocks

Hannah Ellis

A little birdie told me that you'd be here tonight
All sad and lonely her taillights in your eyes
I've been waiting for this moment since you said goodbye
The way you left me in the dark it's hard to sympathize

Bet it's a little bitter
When it hits your lips
You finally got a taste of your own medicine

Tell me does it burn going down down down
Baby, look whose heart's broken now now now
Got what you deserve and there ain't no doubt
Guess what goes around comes around 'round 'round
Have another sip already had your shot
Nice to see you drinking karma on the rocks

Heard it was out of nowhere she just changed her mind
Left you stupid standing there, sounds familiar right

Yeah, you got what you wanted
This is what you get
You finally got a taste of your own medicine

Tell me does it burn going down down down
Baby, look whose heart's broken now now now
Got what you deserve and there ain't no doubt
Guess what goes around comes around 'round 'round
Have another sip already had your shot
Nice to see you drinking karma on the rocks

Baby was your freedom everything you thought
Nice to see you drinking karma on the rocks

Tell me does it burn going down down down
Baby, look whose heart's broken now
Got what you deserve and there ain't no doubt
Guess what goes around comes around 'round 'round
Have another sip already had your shot
Nice to see you drinking karma on the rocks

Baby was your freedom everything you thought
Nice to see you drinking karma on the rocks
Nice to see you drinking karma on the rocks
