

Never In Love

Hannah Ellis

Felt my heart stop
Right there in that parking lot
The only car on at two A.M.
Still don't know what you said
It was so hard to listen
But I knew what you meant
The whole time

You were saying anything to get closure
Yeah everything but it's over
How could it be over when it never was

You were never in love
Just in love with the thought of me
Not in love like you ought to be
Just enough to get all you need
And I had nothing to give
When you asked for it all back
But you already knew that
Cause there was never an us
And you were never in love
No, you were never in love

You kept me in the dark
Only looking out for your heart
I thought you wanted a new start
I didn't know

That you would go and say it's real just to fake it
No, it never was what you made it
I guess having all of me wasn't enough

Cause you were never in love
Just in love with the thought of me
Not in love like you ought to be
Just enough to get all you need
And I had nothing to give
When you asked for it all back
But you already knew that
Cause there was never an us

They say when you know you know
But they never say what to do when he don't

You were never in love
Just in love with the thought of me
Not in love like you ought to be
Just enough to get all you need
And I had nothing to give
When you asked for it all back
But you already knew that
Cause there was never an us
And you were never in love
No, you were never in love
