

My Next Victim

Hannah Fury

I was numb, I was frozen
Then I saw you and my blood started flowing
I was tired and heartbroken
Then I saw you and I shattered open
But you don't want none of my sugar
You just want that skanky snatch, no offense to her
You don't want none of my sugar
You just want that little slit, nothing against her
But you are my next victim
My next requiem
My next anti-numb
You will become my next victim
