

Chasing Butterflies

Hannah Grace

All the love we leave behind to walk the line we're on
Like forest fires and golden skies we burn and then we're gone

By chasing butterflies, I'm losing sight of you
We never mean to hurt each other like we do

But we're all trying, we're all surviving
Hoping that we find a home
When the fall's rising and the sun is blinding
We don't have to be alone
No, we don't have to be alone

Dancing in your living room when all our friends were gone
And even now the memories still live inside that song

No, we don't have to be alone
We don't have to be alone
By chasing butterflies, I'm losing sight of you
We never mean to hurt each other like we do

But we're all trying, we're all surviving
Hoping that we find a home
When the fall's rising and the sun is blinding
Oh, we don't have to be alone
No, we don't have to be alone

But we're all trying, we're all surviving
Hoping that we find a home
When the fall's rising and the sun is blinding
We don't have to be alone
But we're all trying, we're all surviving
Hoping that we find a home
When the fall's rising and the sun is blinding
We don't have to be alone
No, we don't have to be alone
We don't have to be alone
No, we don't have to be alone
