

Glorious World

Hannah Grace

I wake up in the morning with you by my side
Even if you're miles away, you're still on my mind
Tell me all you'd like to know about my life before
Tell me all the things you've see, what do you adore?

Oh, all I wanna do is talk about it
All I wanna do is shout about it

It's a glorious, glorious, glorious world with you in it
World with you in it
It's a glorious world with you in it

Won't you come on over, we can stay up all night
Dance in the kitchen, till the morning light
Let's drive to the ocean, we could live our lives surrounded by
skies
What a way, what a way to survive

It's a glorious, glorious, glorious world with you in it
World with you in it
It's a glorious world with you in it
It's a glorious, glorious, glorious world with you in it
World with you in it
It's a glorious world with you in it

Oh, it's a glorious world with you in it
World with you in it
It's a glorious world with you in it
World with you in it
It's a glorious world with you in it

It's a glorious world with you in it
World with you in it
It's a glorious world with you in it
