

# Healing Hands

Hannah Grace

Turn the page  
I see the space bring in a brand new day  
I don't wanna give it all away  
Tell me we're onto something good  
All this time  
Another year and I still wonder why  
Don't wanna let the truth just pass me by  
I know I'm onto something good

If only I knew then what world I was meant for  
Could've saved my soul for something I adore  
Your healing hands  
Your healing hands

Wonderful  
So many different kinds of wonderful  
I just need my love to overflow  
Then I might find that something good

If only I knew then what world I was meant for  
Could've saved my soul for something I adore  
Your healing hands  
Your healing hands  
If only I knew then how hope really mattered  
Could've thrown my doubt away so long ago  
Into your healing hands  
Into your healing hands

Suddenly  
I see my life unfold before my eyes  
No, I don't need to make a compromise  
Together we are good  
Darling we are good

If only I knew then what world I was meant for  
Could've saved my soul for something I adore  
Your healing hands  
Your healing hands  
If only I knew then how hope really mattered  
Could've thrown my doubt away so long ago  
Into your healing hands  
Into your healing hands
