

Try

Hannah Grace

What if you tried, stepping outside the lines?
Seeing yourself in a different light
Seeing yourself through different eyes
What if the worst
Isn't as bad as what you made up in your own head?
What if you tried, what if you tried?

What if it wasn't in your nature
To stay in the same place?
What if you knew that you could change it, knew that you could take up space
?
What if the whole world was waiting
For someone just like you?
Right where you are, not waiting for stars to line up perfect
All you have to do is

Try
Might not get it right first time
But at least you tried to be wild
To feel alive
To be right where you're meant to be
Try
To find colour on the other side
Sitting in dark means light will shine brighter
And you know that you tried

Some people say
Oh, that there's no rush
But time isn't endless
What if you were fearless?
And what if the worry
Was nothing to worry about?
Something that you could put down, and not have to carry around

What if it wasn't in your nature
To stay in the same place?
What if you knew that you could change it, knew that you could take up space
?
What if the whole world was waiting
For someone just like you?
Right where you are, not waiting for stars to line up perfect
All you have to do is

Try
Might not get it right first time
But at least you tried to be wild
To feel alive
To be right where you're meant to be
Try
To find colour on the other side
Sitting in dark means light will shine brighter
And you know that you tried

Hey, hey, hey
Hey, hey, hey
Hey, hey, hey
Hey, hey, hey

Hey, hey, hey
Hey, hey, hey

What if it wasn't in your nature
To stay in the same place?

What if you knew that you could change it, knew that you could take up space
?
