

Lonely Days & Lonely Nights

Hans Theessink

Lonely days and lonely nights
Life's been full of misery
I've been crying, crying, crying
Since you walked out on me
Woman, one day you will know
You gotta reap what you sow
I've been watching you baby
Tears in my eyes
See you laughing pretty woman
But some day you'll be crying
You just wait and see
Someone will hurt you like you're hurting me
You've been messing with my heart
Now you're tearing me apart
You've been twisting me around
Put me up and put me down
All you wanted was a toy
A dancing puppet on a string
Used me for your fun and joy
Then you dropped me just like nothing
One day, you just wait and see
Someone will treat you like you treated me
You've been messing with my heart
Now you're tearing me apart
You've been twisting me around
Put me up and put me down
Lonely days and lonely nights
You've been messing with my heart
Now you're tearing me apart
You've been twisting me around
Put me up and put me down
