

Storm warning

Hans Theessink

Can't hear no sound, everything seems quiet
Bad moon, fills up the sky
Big black cloud, moving in from the east
Not a ripple on the water
Nothing happening down here
Storm warnin', bad weather on the rise
It's just the silence before the storm
Storm warning
Board up the windows, board up the door
Stay inside, don't go out no more
If I had a knife, I'd cut the tension in the air
Seems like everything is quiet
But something's going down here
Storm warning, bad weather on the rise
It's just the silence before the storm
Storm warning
Nervous dog in a backyard, a stone's throw away
Hear him whine 'n moan, rattlin' his chain
Dog got that instinct, never steers him wrong
Knows there's something gonna happen
Knows there's something going on
Storm warning, bad weather on the rise
It's just the silence before the storm
Storm warning
