

## Bad Solution

Hanson

Oh yeah  
Well you've got to move it  
Or you're gonna lose it  
Time won't always be there on your side  
Well you've got to choose it  
If you're gonna prove it  
Change is gonna come you can't deny

What I want to know is what choice you're gonna make  
'Cause every good debate has a bad solution, hey hey hey

You've got to move it (move it)

Who took the first shot?  
Who started the riot?  
I thought we were marching peacefully  
We got the music  
But we've got to use it, oh  
Shouldn't we be dancing in the street?

I want to know (oh oh) what choice you're going to make  
Every good debate has a bad solution

What you choose to see  
Might define your fate  
Every good debate has a bad solution, whoa-oh  
A bad solution, hey hey hey  
(Whoa-oh)

A bad solution, a bad solution  
You've got to move it, move it  
A bad solution, a bad solution  
You've got to move it, move it  
A bad solution

What I want to know is what choice you're going to make  
Every good debate has a bad solution, hey hey hey  
Bad solution  
It's a bad solution  
It's a bad solution  
Yeah  
It's a bad solution  
Whoa-yeah
