

Change

Hanson

(Oh oh ooh...)

Today I'm done with waitin'
Tomorrow comes so fast
I've spent so many days dreamin'
Always stuck in my past
After all this time
Waitin' for my turn
Searchin' for my place
Now it seems so plain

I've gotta make a change
Gotta make a change
Whoa

I no longer believe
We should save the best for last
Too much is riding on
What we do here and now
Let my reflection show
If I am brave or lost
What we do will define us
'Cause we are more than words

After all we've seen
Tryin' to win this race
Now it seems so plain
And it's making me crazy

I've gotta make a change
Gotta change
Yeah
Gotta make a change
(Oh oh ooh...)

There's, no time, like the present (aah)
To be all that you can be
Whatever that be

Oh, and there's no high
Like the high
You feel
When the world knocks you down and you get back on your feet

(Oh oh ooh...)

That's right
Gotta make a change (ooh)
You gotta make a change (ooh)
After all this time
Waitin' for my turn
Searchin' for my place
You gotta make a change
After all we've seen
Tryin' to win this race
Now it seems so plain
I gotta make a change
