## **Ever Lonely**

## Hanson

Well if you're ever lonely you can call on me and I'll be here for you all you've got to do is call said I'm always waiting here for you all you've got to do is keep on trying till your call gets through

And for so many years I have been your friend we've been through everything time and time again but I want you to know that I still believe in you all you've got to do is keep on trying till your call get's through

Well if you're ever lonely you can call on me and I'll be here for you all you've got to do is call said I'm always waiting here for you all you've got to do is keep on trying till your call gets through

You got to keep trying even though the road gets hard you got to keep going on even though he broke your heart and if you ever need a friend I will be here for you all you've got to do is keep on trying till your call gets through

Well if you're ever lonely you can call on me and I'll be here for you all you've got to do is call said I'm always waiting here for you all you've got to do is keep on trying till your call gets through
