

# Fearless

Hanson

Digging deep, digging up bones  
Dirty hands, carrying stones  
Don't give in to the decay  
Like a robber to the grave

Reach out, reaching to the top  
Been blocked, but you won't stop  
Not just another cliché  
They better get out of your way

If you're not gonna go home  
If you're gonna take names

You've got to be fearless  
But you can be so much more  
You could be bold  
Breaking the mold  
You are what you let yourself be told  
You could be fearless

You are the start to the fire  
Giving more than is required  
Not gonna listen to the pain  
That's why you're making gains

You won't be overturned, you can't be overcome  
Blood sweat and tears is all you brought  
And you're giving all you've got

If you're not gonna go home  
If you're gonna make waves

You've got to be fearless  
But you can be so much more  
You could be bold  
Breaking the mold  
You are what you let yourself be told  
You can be fearless  
But you could be some much more  
You can be brave, breaking the chains  
You are what you let yourself become  
You can be fearless
