

# For Your Love

Hanson

I know I was made to find you  
Our fates were always intertwined  
And you're the dream I'd go to  
Every time I close my eyes

Like the northern star you guide me  
When I journey far from home  
And now that I have you beside me  
There is no way that I'll let you go

If you're lost then I will find you  
And if you ask me  
I'll lay my life down, not for glory  
I'm striving for your love  
I'm fighting

There are many things to fight for  
And castles won by greater men  
But you're the only thing I long for  
And your honor I will always defend

If you're lost then I will find you  
And if you ask me  
I'll lay my life down, not for glory  
I'm striving for your love

I'm fighting for your love  
I would tear down any wall  
And for your love  
I'll turn my back on this world  
For your love  
Every treasure I'd deny myself  
For your love  
For your love

If you're lost then I will find you  
And if you ask me  
I'll lay my life down, not for glory  
I'm striving for your love  
I'm fighting

If you're lost then I will find you  
And if you ask me  
I'll lay my life down, not for glory  
I'm striving for your love  
I'm fighting

Oh, for your love  
I'm falling  
Every treasure I'll deny myself  
For your love  
I'm fighting
