

# I Want A Robot (Birthday 23)

Hanson

Do you know what today is  
Its my birthday  
I can say what I want  
I can even write a ghetto birthday song  
Because I'm bored in my hotel room  
I'm just sitting on my bed scratching my head  
What I'm gonna do, do, do today  
It's my birthday - 23  
Light a candle just for me  
I'm able to I bought the whole town  
Better know your place  
I'll bust you down  
Cuz it's my birthday  
It's my birthday  
It's my b-day  
B before C  
Especially B before X, Y and Z  
B-day

For my next birthday I want a robot  
For my next birthday I want a robot  
For my next birthday I want a robot  
For my next birthday I want a robot  
Big old robot to rule the world  
For my next birthday I want a robot  
For my next birthday I want a robot  
For my next birthday I want a robot  
Big old robot to rule the world

What I'm gonna do do do today  
It's my birthday 23  
Light a candle just for me  
I'm able to, I bought the whole town  
Better know your place  
I'll bust you down  
Cuz it's my birthday  
It's my b-day  
B before C  
Especially B before X, Y and Z  
B-day

For my next birthday I want a robot  
For my next birthday I want a robot  
For my next birthday I want a robot  
For my next birthday I want a robot  
Big old robot to rule the world

For my next birthday I want a robot  
For my next birthday I want a robot  
For my next birthday I want a robot  
For my next birthday I want a robot  
Big old robot to rule the world

For my next birthday I want a robot  
For my next birthday I want a robot  
For my next birthday I want a robot  
For my next birthday I want a robot

Big old robot to rule the world
